

SOFT COLUMN COVER BOPLAN COLUMN PROTECTOR SPECIFICATION SHEET

Revision: 10 January 2023 9:06 AM
Boplan reference: KPS...

PRODUCT SPECIFICATIONS

APPLICATION

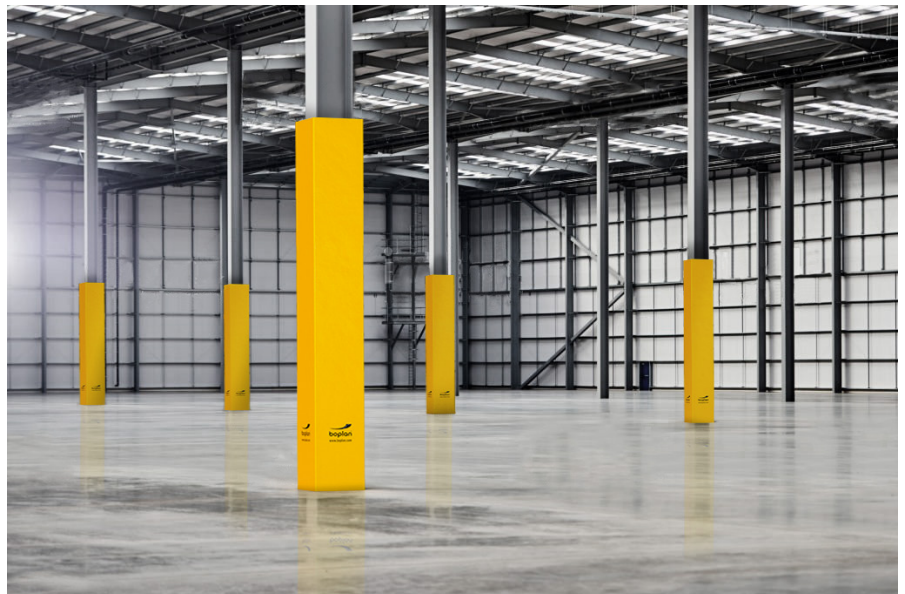

Protection	The Soft Column Cover uses impact-absorbing foam with a thickness of 50mm. This provides protection of pillars and columns in department stores, warehouses and production halls, against the impact of light vehicles. Its high visibility also increases safety of visitors and members of staff.
Environment	Indoor and outdoor use. Operational temperature -30°C up to +70°C.
Features	High visibility due to contrasting colour and height. Fixed using Velcro® to ensure a tight fit, which makes it easy to attach and remove. The PVC layer is UV resistant, easy to clean and water resistant.

MATERIAL

Outer layer	PVC
Core	Impact absorbing foam
Fixation	Velcro®

COLORS

Outer layer	Standard: Yellow RAL 1003
Logo	Standard: Black RAL 9005
