LINE PLAN

Indestructible floor markings with an undeniably professional look

LINE PLAN offers a superior system for floor markings, line markings and pictograms that spectacularly surpasses all other marking systems on the market. LINE PLAN floor markings have sloping edges, making it harder for it to get ripped off under the duress of constant heavy traffic from forklifts and trucks. While the floor tape used in most alternative floor marking systems tears loose at the slightest abrupt manoeuvre with a forklift, or even if people scuff their feet over it, LINE PLAN provides unparalleled resistance to any kind of friction, but also all types of external influence.

LINE PLAN floor markings give you a sharply demarcated, safe work environment that will give your company that professional look, while at the same time protecting your employees. The LINE PLAN floor markings and line markings are suitable for every type of surface and use, including concrete floors, footpaths, hallways, work zones, traffic zones, warehouse floors, etc.
